Chainsaw Safety: Real Accidents, Real Stories

Department: General Accident Prevention/Safety Management/Admi

Duration: 11 minutes

Format: DVD

The team lead is looked at to set the tone of the workday. Follow what can happen when that team lead, or any worker, doesn't follow required safety guidelines and safety procedures in this behavior based safety training program. This chainsaw safety video covers issues like PPE and cutting procedures for chainsaws in a unique and influential way. Make sure your employees know why you require them to do work your way, the safe way, with the story told on this excellent training film. Give them some proof that complacency for a day can effect you for the rest of your life.

Cliff Meidl - Safe Digging, Lessons Learned

Department: Public Works/Streets

Duration: 10 minutes

Format: DVD

"On November 19th 1986, it was a chilly morning and a typical workday for me..." And so began the day that would change Cliff Meidl's life forever, the day he nearly lost his life on an excavation site. Cliff's story of recovery and perseverance following his tragic accident is truly inspiring, from simply learning to walk again, to beating the odds and making the U.S. Olympic Team – twice. It is an important reminder to us all, that accidents can happen to anyone. Dedication to the goal of safe digging is a shared responsibility... between the excavator, the locator, the facility operators, and the 811 communication centers that connect them. A handful of simple steps can help make your excavation site accident-free, and ensure public safety and the safety of your crew. Because safe digging is often as simple as knowing what's below.

Comprehensive Employee Safety Orientation

Department: General Accident Prevention/Safety Management/Admi

Duration: 38 minutes

Format: DVD
